Pneumatic strapping tool for steel strap

The specialist for 19 mm

With the PKE-HD, TITAN has developed a hand-held tool for standard and high-performance straps up to 19 x 0.8 mm that is unrivalled on the market.

As the big brother of the PKE and cousin of the HKE-HD, it combines the key features of the E-Series with a comfortable, fully pneumatic function and specialisation in straps of 19 mm width.

This makes it easy to use the tool in tough applications such as sheet metal packages. The sealless joint with three notches established by TITAN holds together what belongs together.

The high and uniform strap tension ensures the highest reliability.

Technical Data

| | |
|----------------------------|--|
| Kind of drive (tensioning) | Pneumatic |
| Tension force | up to 7,000 N |
| Kind of drive (sealing) | Pneumatic |
| Strap feeding speed | 0.5 ft/s |
| Dimensions | 15.4 x 5.9 x 10.6" (L x W x H) 15.4 x 6.4 x 10.6" (L x W x H) (PKE-HD) |
| Weight | 25.3 lb 25.1 lb (PKE-HD) |
| Air pressure | min. 5 bar flow pressure (for 3/4" x 0.025 in MEGABAND®) max. 6 bar flow pressure |

| | |
|-------------------------------------|-------------------------------------|
| Air consumption (during tensioning) | 21.18 ft ³ / min. |
| Cross-section | information currently not available |
| Handarm vibration | < 2.5 m/s ² |
| Noise level | 78 dB (A) |

Strap/Joint

| | |
|---|---|
| Type of strap | Steel strap |
| Strap | Automatenband MEGABAND [®] Megaflex |
| Strap width | 3/4" |
| Strap thickness | 0.024 - 0.031" (for Automatenband, Megaflex) 0.025 - 0.031" (for MEGABAND [®]) |
| Kind of seal | Sealless-joint |
| Sealing strength (depending on strap quality, strap dimensions) | approx. 75% of the strap breaking load |

Minimum bearing area

| | |
|--------------|------|
| Flat package | 5.9" |
|--------------|------|

Application

| |
|--|
| Strapping of flat packages (e.g. palletized goods) for stationary use. |
|--|
